Index of Subjects

α_2-Adrenergic agonist
The effect of the α_2-adrenergic agonist, guanfacin, on the energy metabolism of steers fed on low-quality-roughage diets. **67**, 337, 1992

Amino acid requirements
The metabolic utilization of amino acids: potentials of $^{14}CO_2$ breath test measurements. **67**, 207, 1992

Amino acid uptake
The effect of forage and forage–concentrate diets on rumen fermentation and metabolism of nutrients by the mesenteric- and portal-drained viscera in growing steers. **67**, 355, 1992

Amino acid utilization
The metabolic utilization of amino acids: potentials of $^{14}CO_2$ breath test measurements. **67**, 207, 1992

Amylomaize starch degradation
Contribution of the digestive tract microflora to amylomaize starch degradation in the rat. **67**, 489, 1992

Anti-nutritive effects
The inhibition of nutrient digestion by wheat pentosans. **67**, 123, 1992

Apple pulp
Effects of dietary fibre and tannins from apple pulp on the composition of faeces in rats. **67**, 463, 1992

Arachidonic acid
The effects of acute and chronic adminstration of *n*-6 and *n*-3 polyunsaturated fatty acids on ethanol-induced gastric haemorrhage in rats. **67**, 501, 1992

Ascorbic acid
Vitamin C and the common cold. **67**, 3, 1992

Availability
The availability of lysine in diets for pigs: comparative methodology. **67**, 401, 1992

Basal metabolic rates
Thermic effect of a meal: 3. Effect of dietary supplementation in chronically undernourished human subjects. **67**, 187, 1992

Bioavailability
Supplementation with wheat selenium induces a dose-dependent response in serum and urine of a Se-replete population. **67**, 287, 1992

Body composition
Thermic effect of a meal: 2. Role in chronic undernutrition. **67**, 177, 1992

Body size
Muscle protein degradation assessed by N^t-methylhistidine excretion in mature White Leghorn, dwarf broiler and normal broiler males maintained on either low- or high-protein diets. **67**, 391, 1992

Bread
Zinc absorption in adult men from a chicken sandwich made with white or wholemeal bread, measured by a double-label stable-isotope technique. **67**, 411, 1992

Breast-feeding
Weaning practices and breast-feeding duration in Northern Thailand. **67**, 149, 1992

Broiler diets
The inhibition of nutrient digestion by wheat pentosans. **67**, 123, 1992

^{13}C breath test
Use of naturally enriched mixed food in ^{13}C breath tests applied in young sucking calves. **67**, 43, 1992

C57 Bl mice
High-fat diets and the immune response of C57 Bl mice. **67**, 17, 1992

Calcium
Calcium and phosphorus requirements of the very young turkey as determined by response surface analysis. **67**, 421, 1992

Carbohydrate intake
Dietary-induced increases of disaccharidase activities in rat jejunum. **67**, 267, 1992

Casein
Effects of diets containing casein and rapeseed proteins on the enzyme secretion from the exocrine pancreas in the pig. **67**, 215, 1992

Cell-wall degradation
Enzyme supplementation, degradation and metabolism of three U-^{14}C-labelled cell wall-substrates in the fowl. **67**, 91, 1992
Metabolic fates of U-^{14}C-labelled monosaccharides and an enzyme-treated cell-wall substrate in the fowl. **67**, 103, 1992

Chicken meat
Zinc absorption in adult men from a chicken sandwich made with white or wholemeal bread, measured by a double-label stable-isotope technique. **67**, 411, 1992

Chronic lung disease
Tissue α-tocopherol status during late fetal and early neonatal life of the guinea-pig. **67**, 457, 1992

Chronic undernutrition
Thermic effect of a meal: 2. Role in chronic undernutrition. **67**, 177, 1992
Thermic effect of a meal: 3. Effect of dietary supplementation in chronically undernourished human subjects. **67**, 187, 1992

Complex carbohydrates
Digestion of complex carbohydrates and large bowel fermentation in rats fed on raw and cooked peas (*Pisum sativum*). **67**, 475, 1992

Cooking
Digestion of complex carbohydrates and large bowel fermentation in rats fed on raw and cooked peas (*Pisum sativum*). **67**, 475, 1992

Dietary fat
Influence of amount of dietary fat and protein on esterase-1 (ES-1) activities of plasma and small intestine in rats. **67**, 379, 1992

Dietary fibre
Gastrointestinal morphology and absorption of monosaccharides in fowls conditioned to different types and levels of dietary fibre. **67**, 77, 1992
Effect of fibre level, particle size and adaptation period on digestibility and rate of passage as

measured at the ileum and in the faeces in the adult rabbit. **67**, 133, 1992
Effects of dietary fibre and tannins from apple pulp on the composition of faeces in rats. **67**, 463, 1992

Digestion
Effect of fibre level, particle size and adaptation period on digestibility and rate of passage as measured at the ileum and in the faeces in the adult rabbit. **67**, 133, 1992

Digestive enzymes
The effect of proanthocyanidin-rich hulls and proanthocyanidin extracts from bean hulls (*Vicia faba* L.) on nutrient digestibility and digestive enzyme activities in young chicks. **67**, 57, 1992

Disaccharidase activity
Dietary-induced increases of disaccharidase activities in rat jejunum. **67**, 267, 1992

Diurnal rhythm
Dietary-induced increases of disaccharidase activities in rat jejunum. **67**, 267, 1992

Eating behaviour
Studies of method of conserving grass herbage and frequency of feeding in cattle. 2. Eating behaviour, rumen motility and rumen fill. **67**, 319, 1992

Editorial
The development of nutritional concepts. **67**, 1, 1992
Images of nutrition. **67**, 147, 1992
The ethics of peer review. **67**, 303, 1992

Energy metabolism
Energy and nitrogen intake, expenditure and retention at 32° in growing fowl given diets with a wide range of energy and protein contents. **67**, 195, 1992
The effect of the α_2-adrenergic agonist, guanfacin, on the energy metabolism of steers fed on low-quality-roughage diets. **67**, 337, 1992

Environmental temperature
Energy and nitrogen intake, expenditure and retention at 32° in growing fowl given diets with a wide range of energy and protein contents **67**, 195, 1992

Enzyme activity
The effect of sucrose supplements on particle-associated carboxymethylcellulase and xylanase activities in cattle given grass-silage-based diet. **67**, 245, 1992

Enzyme supplementation
Enzyme supplementation, degradation and metabolism of three U-^{14}C-labelled cell-wall substrates in the fowl. **67**, 91, 1992
Metabolic fates of U-^{14}C-labelled monosaccharides and an enzyme-treated cell-wall substrate in the fowl. **67**, 103, 1992

Erythrocytes
The effect of malnutrition on insulin binding to rat erythrocytes. **67**, 279, 1992

Esterase-1
Influence of amount of dietary fat and protein on esterase-1 (ES-1) activities of plasma and small intestine in rats. **67**, 379, 1992

Faba bean (*Vicia faba*)
Mineral excretion of rats fed diets containing faba beans (*Vicia faba* L.) or faba bean fractions. **67**, 295, 1992

Faecal mineral excretion
Mineral excretion of rats fed diets containing faba beans (*Vicia faba* L.) or faba bean fractions. **67**, 295, 1992

Faeces composition
Effects of dietary fibre and tannins from apple pulp on the composition of faeces in rats. **67**, 463, 1992

Fat intake
High-fat diets and the immune response of C57 Bl mice. **67**, 17, 1992
Influence of amount of dietary fat and protein on esterase-1 (ES-1) activities of plasma and small intestine in rats. **67**, 379, 1992

Feeding frequency
Studies of method of conserving grass herbage and frequency of feeding in cattle. 1. Voluntary feed intake, digestion and rate of passage. **67**, 305, 1992
Studies of method of conserving grass herbage and frequency of feeding in cattle. 2. Eating behaviour, rumen motility and rumen fill. **67**, 319, 1992

Fetus
Tissue α-tocopherol status during late fetal and early neonatal life of the guinea-pig. **67**, 457, 1992

Fibre digestion
The effect of sucrose supplements on particle-associated carboxymethylcellulase and xylanase activities in cattle given grass-silage-based diet. **67**, 245, 1992

Fish oil
The effects of acute and chronic adminstration of *n*-6 and *n*-3 polyunsaturated fatty acids on ethanol-induced gastric haemorrhage in rats. **67**, 501, 1992

β-Galactosidase
Enhancement of intestinal hydrolysis of lactose by microbial β-galactosidase of kefir. **67**, 67, 1992

Gastric haemorrhage
The effects of acute and chronic adminstration of *n*-6 and *n*-3 polyunsaturated fatty acids on ethanol-induced gastric haemorrhage in rats. **67**, 501, 1992

Gastrointestinal morphology
Gastrointestinal morphology and absorption of monosaccharides in fowls conditioned to different types and levels of dietary fibre. **67**, 77, 1992

Glycaemic index
Influence of the amount of starch on the glycaemic index to rice in non-insulin-dependent diabetic subjects. **67**, 371, 1992

Grass herbage conservation
Studies of method of conserving grass herbage and frequency of feeding in cattle. 1. Voluntary feed intake, digestion and rate of passage. **67**, 305, 1992
Studies of method of conserving grass herbage and frequency of feeding in cattle. 2. Eating behaviour, rumen motility and rumen fill. **67**, 319, 1992

Guanfacin
The effect of the α_2-adrenergic agonist, guanfacin, on the energy metabolism of steers fed on low-quality-roughage diets. **67**, 337, 1992

Guar gum
The effect of ingestion of guar gum on ileostomy effluent. **67**, 115, 1992

Guinea-pig lens
Effect of vitamin C on sorbitol in the lens of guinea-pigs made diabetic with streptozotocin. **67**, 445, 1992

Gut microflora
Contribution of the digestive tract microflora to amylomaize starch degradation in the rat. **67**, 489, 1992

Gut tissue metabolism
The effect of forage and forage–concentrate diets on rumen fermentation and metabolism of nutrients by the mesenteric- and portal-drained viscera in growing steers. **67**, 355, 1992

Hypochlorite
Vitamin C and the common cold. **67**, 3, 1992

Ileostomy effluent
The effect of ingestion of guar gum on ileostomy effluent. **67**, 115, 1992

Immune response
High-fat diets and the immune response of C57 Bl mice. **67**, 17, 1992

Infection
Vitamin C and the common cold. **67**, 3, 1992

Insulin binding
The effect of malnutrition on insulin binding to rat erythrocytes. **67**, 279, 1992

Insulin-like growth factor-1
Effect of dietary proteins on insulin-like growth factor-1 (IGF-1) messenger ribonucleic acid content in rat liver. **67**, 257, 1992

Insulin-like growth factor-1 mRNA
Effect of dietary proteins on insulin-like growth factor-1 (IGF-1) messenger ribonucleic acid content in rat liver. **67**, 257, 1992

Intestine
Influence of amount of dietary fat and protein on esterase-1 (ES-1) activities of plasma and small intestine in rats. **67**, 379, 1992

Iron speciation
Application of selective extraction to the study of iron species present in diet and rat gastrointestinal tract contents. **67**, 437, 1992

Lactose digestion
Enhancement of intestinal hydrolysis of lactose by microbial β-galactosidase of kefir. **67**, 67, 1992

Large bowel fermentation
Digestion of complex carbohydrates and large bowel fermentation in rats fed on raw and cooked peas (*Pisum sativum*). **67**, 475, 1992

Leucine
The metabolic utilization of amino acids: potentials of $^{11}CO_2$ breath test measurements. **67**, 207, 1992

Liver
Effect of dietary proteins on insulin-like growth factor-1 (IGF-1) messenger ribonucleic acid content in rat liver. **67**, 257, 1992

Low-quality-roughage diets
The effect of the α_2-adrenergic agonist, guanfacin, on the energy metabolism of steers fed on low-quality-roughage diets. **67**, 337, 1992

Lysine
The availability of lysine in diets for pigs: comparative methodology. **67**, 401, 1992

Magnesium
Inhibitory effect of high protein intake on nephrocalcinogenesis in female rats. **67**, 223, 1992

Malnutrition
The effect of malnutrition on insulin binding to rat erythrocytes. **67**, 279, 1992

Michaelis–Menten kinetics
Rumen protein degradation rates estimated by non-linear regression analysis of Michaelis–Menten in vitro data. **67**, 27, 1992

Microbial maintenance coefficient
Effects of diet, level of intake, sodium bicarbonate and monensin on urinary allantoin excretion in sheep. **67**, 345, 1992

Monosaccharide metabolism
Metabolic fates of U-^{14}C-labelled monosaccharides and an enzyme-treated cell-wall substrate in the fowl. **67**, 103, 1992

Monosaccharide uptake
Gastrointestinal morphology and absorption of monosaccharides in fowls conditioned to different types and levels of dietary fibre. **67**, 77, 1992

Naturally-enriched milk diet
Use of naturally enriched mixed food in ^{13}C breath tests applied in young sucking calves. **67**, 43, 1992

Nephrocalcinosis
Inhibitory effect of high protein intake on nephrocalcinogenesis in female rats. **67**, 223, 1992

Neutrophils
Vitamin C and the common cold. **67**, 3, 1992

Nitrogen metabolism
Energy and nitrogen intake, expenditure and retention at 32° in growing fowl given diets with a wide range of energy and protein contents. **67**, 195, 1992

Non-insulin-dependent diabetes mellitus
Influence of the amount of starch on the glycaemic index to rice in non-insulin-dependent diabetic subjects. **67**, 371, 1992

Non-linear regression
Rumen protein degradation rates estimated by non-linear regression analysis of Michaelis–Menten in vitro data. **67**, 27, 1992

Non-starch polysaccharides
The inhibition of nutrient digestion by wheat pentosans. **67**, 123, 1992

Nutrient absorption
The effect of forage and forage–concentrate diets on rumen fermentation and metabolism of nutrients by the mesenteric- and portal-drained viscera in growing steers. **67**, 355, 1992

Nutrient digestibility
The effect of proanthocyanidin-rich hulls and proanthocyanidin extracts from bean hulls (*Vicia faba* L.) on nutrient digestibility and digestive enzyme activities in young chicks. **67**, 57, 1992

Pancreatic secretion
Effects of diets containing casein and rapeseed proteins on the enzyme secretion from the exocrine pancreas in the pig. **67**, 215, 1992

Particle density
The influence of density and size of particles on rumination and passage from the reticulo-rumen of sheep. **67**, 235, 1992

Particle size
The influence of density and size of particles on rumination and passage from the reticulo-rumen of sheep. **67**, 235, 1992
Peas
Digestion of complex carbohydrates and large bowel fermentation in rats fed on raw and cooked peas (*Pisum sativum*). **67**, 475, 1992
Phosphorus
Inhibitory effect of high protein intake on nephrocalcinogenesis in female rats. **67**, 223, 1992
Calcium and phosphorus requirements of the very young turkey as determined by response surface analysis. **67**, 421, 1992
Physical activity
Use of naturally enriched mixed food in ^{13}C breath tests applied in young sucking calves. **67**, 43, 1992
Phytin-phosphorus retention
Calcium and phosphorus requirements of the very young turkey as determined by response surface analysis. **67**, 421, 1992
Plant cell-wall substrates
Enzyme supplementation, degradation and metabolism of three U-^{14}C-labelled cell-wall substrates in the fowl. **67**, 91, 1992
Plasma
Influence of amount of dietary fat and protein on esterase-1 (ES-1) activities of plasma and small intestine in rats. **67**, 379, 1992
Plasma galactose
Enhancement of intestinal hydrolysis of lactose by microbial β-galactosidase of kefir. **67**, 67, 1992
Polyphenols
Effects of dietary fibre and tannins from apple pulp on the composition of faeces in rats. **67**, 463, 1992
Prematurity
Tissue α-tocopherol status during late fetal and early neonatal life of the guinea-pig. **67**, 457, 1992
Proanthocyanidin
The effect of proanthocyanidin-rich hulls and proanthocyanidin extracts from bean hulls (*Vicia faba* L.) on nutrient digestibility and digestive enzyme activities in young chicks. **67**, 57, 1992
Protein degradation
Rumen protein degradation rates estimated by non-linear regression analysis of Michaelis–Menten in vitro data. **67**, 27, 1992
Protein intake
Effects of diets containing casein and rapeseed proteins on the enzyme secretion from the exocrine pancreas in the pig. **67**, 215, 1992
Inhibitory effect of high protein intake on nephrocalcinogenesis in female rats. **67**, 223, 1992
Protein turnover
Muscle protein degradation assessed by N^t-methylhistidine excretion in mature White Leghorn, dwarf broiler and normal broiler males maintained on either low- or high-protein diets. **67**, 391, 1992
Rapeseed
Effects of diets containing casein and rapeseed proteins on the enzyme secretion from the exocrine pancreas in the pig. **67**, 215, 1992
Rice
Influence of the amount of starch on the glycaemic index to rice in non-insulin-dependent diabetic subjects. **67**, 371, 1992
Rickets
Calcium and phosphorus requirements of the very young turkey as determined by response surface analysis. **67**, 421, 1992
Rodent diet
Application of selective extraction to the study of iron species present in diet and rat gastrointestinal tract contents. **67**, 437, 1992
Rumen
Effects of diet, level of intake, sodium bicarbonate and monensin on urinary allantoin excretion in sheep. **67**, 345, 1992
Rumen digestion
Studies of method of conserving grass herbage and frequency of feeding in cattle. 1. Voluntary feed intake, digestion and rate of passage. **67**, 305, 1992
Rumen motility and fill
Studies of method of conserving grass herbage and frequency of feeding in cattle. 2. Eating behaviour, rumen motility and rumen fill. **67**, 319, 1992
Rumen protein escape
Rumen protein degradation rates estimated by non-linear regression analysis of Michaelis–Menten in vitro data. **67**, 27, 1992
Ruminant
The effect of sucrose supplements on particle-associated carboxymethylcellulase and xylanase activities in cattle given grass-silage-based diet. **67**, 245, 1992
Rumination
The influence of density and size of particles on rumination and passage from the reticulo-rumen of sheep. **67**, 235, 1992
Selective extraction technique
Application of selective extraction to the study of iron species present in diet and rat gastrointestinal tract contents. **67**, 437, 1992
Selenium
Supplementation with wheat selenium induces a dose-dependent response in serum and urine of a Se-replete population. **67**, 287, 1992
Sorbitol
Effect of vitamin C on sorbitol in the lens of guinea-pigs made diabetic with streptozotocin. **67**, 445, 1992
Stable isotope
Zinc absorption in adult men from a chicken sandwich made with white or wholemeal bread, measured by a double-label stable-isotope technique. **67**, 411, 1992
Starch digestion
Contribution of the digestive tract microflora to amylomaize starch degradation in the rat. **67**, 489, 1992
Streptozotocin diabetes
Effect of vitamin C on sorbitol in the lens of guinea-pigs made diabetic with streptozotocin. **67**, 445, 1992

Substrate oxidation rates
Thermic effect of a meal: 2. Role in chronic undernutrition. **67**, 177, 1992
Thermic effect of a meal: 3. Effect of dietary supplementation in chronically undernourished human subjects. **67**, 187, 1992
Sucrose supplements
The effect of sucrose supplements on particle-associated carboxymethylcellulase and xylanase activities in cattle given grass-silage-based diet. **67**, 245, 1992
Superoxide
Vitamin C and the common cold. **67**, 3, 1992
Supplementary feeding
Weaning practices and breast-feeding duration in Northern Thailand. **67**, 149, 1992
Thermic effect of a meal
Thermic effect of a meal: 1. Methodology and variation in normal young adults. **67**, 165, 1992
Thermic effect of a meal: 2. Role in chronic undernutrition. **67**, 177, 1992
Thermic effect of a meal: 3. Effect of dietary supplementation in chronically undernourished human subjects. **67**, 187, 1992
Tibial dyschondroplasia
Calcium and phosphorus requirements of the very young turkey as determined by response surface analysis. **67**, 421, 1992
Transit time
Effect of fibre level, particle size and adaptation period on digestibility and rate of passage as measured at the ileum and in the faeces in the adult rabbit. **67**, 133, 1992
The influence of density and size of particles on rumination and passage from the reticulo-rumen of sheep. **67**, 235, 1992
Tyrosine
The metabolic utilization of amino acids: potentials of $^{14}CO_2$ breath test measurements. **67**, 207, 1992
Urinary allantoin
Effects of diet, level of intake, sodium bicarbonate and monensin on urinary allantoin excretion in sheep. **67**, 345, 1992
Vicia faba
The effect of proanthocyanidin-rich hulls and proanthocyanidin extracts from bean hulls (*Vicia faba* L.) on nutrient digestibility and digestive enzyme activities in young chicks. **67**, 57, 1992
Vitamin C
Effect of vitamin C on sorbitol in the lens of guinea-pigs made diabetic with streptozotocin. **67**, 445, 1992
Vitamin E
Tissue α-tocopherol status during late fetal and early neonatal life of the guinea-pig. **67**, 457, 1992
Voluntary intake
Studies of method of conserving grass herbage and frequency of feeding in cattle. 1. Voluntary feed intake, digestion and rate of passage. **67**, 305, 1992
Weaning
Weaning practices and breast-feeding duration in Northern Thailand. **67**, 149, 1992
Zinc absorption
Zinc absorption in adult men from a chicken sandwich made with white or wholemeal bread, measured by a double-label stable-isotope technique. **67**, 411, 1992
